

# Pawel Feldman

Chief Business Development Officer & Member of the Board • 11 bit studios S.A.

## Professional Summary

Pawel Feldman is a senior executive in the international gaming industry, with deep expertise in both video game development and global publishing. Currently serving as the Chief Business Development Officer and a Member of the Board at 11 bit studios S.A., Pawel oversees strategic partnerships, game licensing, publishing acquisitions (XDEV), and global marketing operations. Over his tenure of nearly four years, he has guided commercial operations for acclaimed proprietary franchises like *Frostpunk 2* and *The Alters*, while steering third-party publishing deals for global hits such as *Moonlighter*, *Children of Morta*, and *The Thaumaturge*.

## Key Profile Details

|                      |                                                                 |
|----------------------|-----------------------------------------------------------------|

## Emergentic B2B Compatibility Audit

Based on network parameters scraped from LinkedIn Sales Navigator, Pawel Feldman represents a **High Priority (Top Tier)** target for the Emergentic pipeline automation offerings.

| Metric             | Rating    | Weight | Subtotal    | Strategic Implications                                                              |
|--------------------|-----------|--------|-------------|-------------------------------------------------------------------------------------|
| Mutual Contacts    | 5.0 / 5.0 | x 3.0  | 15.0        | 6 shared connections; highly warm accessibility path.                               |
| Role Seniority     | 5.0 / 5.0 | x 2.0  | 10.0        | CBDO & Board status yields direct signing authority.                                |
| AI-Tech Alignment  | 2.0 / 5.0 | x 1.5  | 3.0         | Traditional publisher; high initial tech-adoption friction.                         |
| Content Scale Need | 4.0 / 5.0 | x 1.0  | 4.0         | Hybrid multi-title publishing operations; heavy trailer/social asset localizations. |
| Total Score        | 5.0       | 5.0    | 32.0 / 37.5 | High Priority Target (Tier 1)                                                       |

## Custom Outreach Strategy

To address their lower AI-alignment score, the pitch should skip AI buzzwords and focus on **operational media pipeline engineering**. 11 bit studios' hybrid model (internal development + third-party publishing) creates massive ongoing trailer, localization, and promo asset formatting overhead. Key value propositions include automating localized trailer subtitle burns across 12+ languages and programmatically formatting vertical 9:16 gameplay clips from widescreen captures for active titles.
